Meet the Cobra® - The Indispensable Gripping Machine.

No more time-consuming test-adjusting to achieve the correct size. Now, simply position the upper jaw to the workpiece, press the button and close the lower jaw.

Say "goodbye" to those awful blood blisters you get with other gripping pliers. We've designed a built-in pinch guard that prevents blood blisters on your hand. Your safety is our first priority.

Innovative. Efficient. Safe. That's the KNIPEX Difference.

- adjustment at the touch of a button directly on the workpiece
- fine adjustment for optimum adaptation to different size work pieces and a comfortable gripping position
- self-locking on pipes and nuts: no slipping on the workpiece and low hand force required
- gripping surfaces with special hardened teeth, teeth hardness approx. 61 HRC; low wear and reliable gripping
- box-joint design: high stability because of double guide
- reliable catching of the hinge bolt: no unintentional shifting
- pinch guard prevents operators' fingers from being pinched
- Chrome vanadium electric steel; forged, oil-hardened

Length 5"

for use in precision mechanics, hobbies and in the home; improved access in very confined spaces, perfect for an emergency tool kit

Length 7 1/4"

good access to the workpiece

Length 10"

very large gripping capacity; good access to the workpiece; high load capacity having a slim design

Teeth set against the direction of rotation have a self-clamping effect and prevent slipping on the workpiece

Fine adjustment by pushing a button: fast and comfortable

Fast and firm adjustment directly on the workpiece
